

**IT'S A CLASSIC FOR A REASON.**

DIRTT's first center-mounted glass wall delivers the performance you need today with the ability to adapt for tomorrow. Precision manufactured in three weeks or less, the 4" Classic is tailored to fit your space down to 1/16". Part of the DIRTT construction system, it integrates easily into your space, reducing risk and schedules while increasing cost efficiency and future flexibility.

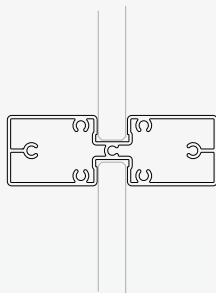

### Features

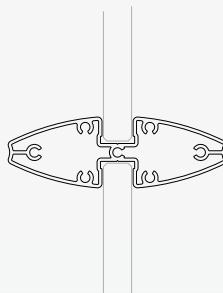

- Assembly is 100% custom
- Center mount glass
- STC rating 30 – 35
- Profile measures 4" (102mm) at widest point
- Seamlessly integrates with the rest of the DIRTT construction system
- Leveling height adjustment of 1½" (38mm) to accommodate floor slab variances

### Options

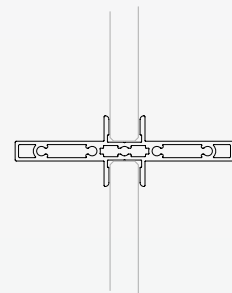

- Extrusions available in clear anodized, powder coat, veneer-wrapped, and DIRTT approved custom finishes
- Available in rectilinear, curvilinear, and blade profiles
- Glass may be specified as tempered or laminated, ¼" (6mm), ⅜" (10mm), or ½" (12mm)
- Header rail attaches directly to ceiling, soffit, bulkhead, or structure
- Specify assemblies with vertical mullions or butt-joint glass-to-glass details
- Transparent polycarbonate extrusions allow glass-to-glass connections and eliminate need for wet seals
- Standard header uses ceiling track, ceiling grid clips, or metal stud kickers
- Standard base track secures to the base building with carpet grippers, double-sided tape, or seismic anchoring
